In anticipation of Riverside Drive Vista Phase 1, Stage 2 (Solidarity Towers to Lauzon Road) roadway improvements, construction will continue on all necessary utility relocations.

A. South Side Union Gas Works

The work on the south side of Riverside Drive began on Monday October 2ih, 2014. Union Gas completed this portion of the work by December 31st, 2014.

Enwin will commence with hydro relocation work in early 2017, from Frank Avenue to Lauzon Road.

B. North Side Works

Enwin is currently relocating the existing hydro poles on the north side of Riverside Drive from Solidarity Towers to Dieppe Street and from Dieppe Street to Lauzon Road. This work began in September 2016.

Enwin anticipates the completion of the work east of Dieppe by December 31st, 2016. The work west of Dieppe is expected to begin January 2nd, 2017 with completion anticipated by March 31st 2017.

C. Additional Utility Relocations

Following the work by Enwin Utilities, Bell, and Cogeco, Union Gas will relocate their existing utility infrastructure from Solidarity Towers to Lauzon Road.

As the Union Gas relocation works require temporary shut-off of the gas services, it will be necessary for Union Gas to contact each homeowner prior to completing this work. As this work may be completed during the winter months, some area residents may be out of town while this work is being completed. In order to ensure that the work can be completed in a timely manner, we request that those residents that will be out of town during the winter months advise the city when they will be out of town, and to provide an alternative contact person who can authorize access to the home to complete this work.
