

Public Information Centre (PIC) Permanent Road Closure of Karen and Harcourt Streets as part of the Cabana Road Environmental Assessment Implementation

The City of Windsor will be hosting a Public Information Centre (PIC) to present the designed permanent road closures as per the Cabana Road Environmental Assessment recommendations. The PIC will allow members of the public, including residents in the study area, to provide feedback on the closure of Karen and Harcourt Streets at Cabana Road East.

Having a public consultation of road closures during the detailed design stage is a requirement of the approved Environmental Assessment. At the PIC, the public can review the recommended road closures, discuss their issues, and allow for the project team to address any concerns.

Members of the public, including residents in the study area, are invited to attend the PIC **Tuesday, May 3, 2016 between 5:00 p.m. and 7:00 p.m. at Roseland Public School – 620 Cabana Road East, Windsor.** City of Windsor Engineering Staff and City's Consultant RC Spencer Associates will be present to discuss issues and address any concerns.
