

**PONTIAC PUMPING STATION UPGRADES  
MUNICIPAL CLASS ENVIRONMENTAL ASSESSMENT  
NOTICE OF PUBLIC INFORMATION CENTRE**

The City of Windsor is undertaking a Schedule 'C' Municipal Class Environmental Assessment (Class EA) for the proposed Pontiac Pumping Station Upgrades. This study will satisfy Phases 3 and 4 of the Class EA process which will involve the evaluation of design concept alternatives for the proposed Pontiac Pumping Station. An Environmental Study Report will be prepared to document the activities and recommendations from the Class EA process.

The City of Windsor endorsed its first comprehensive Sewer and Coastal Flood Protection Master Plan (SMP) in 2020. The SMP was completed in accordance with Phases 1 and 2 of the Municipal Class Environmental Assessment process. It is outlined in the SMP that the capacity upgrades of Pontiac Pumping Station are required mitigate basement flooding and improve flood resiliency for severe storm events in the Pontiac Drainage Area.

The City is hosting a Public Information Centre (PIC) to present the evaluation of design concept alternatives for the Pontiac Pumping Station. Consultation is an integral part of the EA process and members of the public, agencies, and other interested persons are invited to participate in the upcoming PIC.

**PUBLIC INFORMATION CENTRE  
Wednesday July 13<sup>th</sup>, 2022  
3:00 p.m. – 7:00 p.m.  
WFCU Centre, St. Clair Room  
8787 McHugh Street, Windsor, ON**

Information regarding this Environmental Assessment can be found on the City's project website: <https://www.citywindsor.ca/residents/Construction/Environmental-Assessments-Master-Plans/Pages/Pontiac-Pumping-Station-Upgrades-at-the-Little-River-Pollution-Control-Plant-Environmental-Assessment.aspx>

Following the PIC, comments are welcomed and will be received until August 3<sup>rd</sup>, 2022.
