## Fall Sort and Count

### WHAT YOU WILL NEED:

- Nature Items – Leaves, Twigs, Pinecones, Gourds, etc.
- Numbered Cards 1-5 (write numbers on pieces of paper if you don't have cards)
- Holder or Placemat

### WHAT TO DO NEXT:

#### Sort by Colour, Likeness and Number

1. Gather several items found in nature.
2. Collect more than one of each item.
3. Sort the items by colour, likeness or by number.
4. Discuss the items you are sorting (colours, shapes, textures, etc.).
5. Next count and sort the items so that the groups reflect each number.
6. Place the numbered card next to the items of that value.
