Sculpting with Ice

WHAT YOU WILL NEED:

- Ice Cube Tray or other molds
- Water
- Plate (plastic preferably)
- Food Colouring – several colours

WHAT TO DO NEXT:

1. Pour Water into the Ice Cube Trays
2. Add drops of food colouring into the individual slots. The more drops you add the darker the colour.
3. Put tray in a freezer for several hours to harden into ice.
4. Take out an ice cube and lay it on the plate.
5. Add ice cubes on top of each other.
6. This creates a Sculpture.
7. Work with the ice cubes rearranging them in different ways.
8. How tall or wide can you make it? Hurry before it melts!
