

Ice Cube Block Painting

WHAT YOU WILL NEED:

- Different coloured blocks
- Food colouring to match the blocks
- Water
- Ice cube tray

WHAT TO DO NEXT:

1. Put drops of different coloured food colouring in every other section of the ice cube tray, and then fill them with water.
2. Place the ice cube tray into the freezer and pour more water until the coloured cubes are full to the very top.
3. Carefully place the blocks on the matching-coloured water so they touch.
4. Leave the tray in the freezer until the water is frozen. Once frozen, your paint is ready!
