

Lacing Activity

WHAT YOU WILL NEED:

- Paper/Card stock
- Markers/Coloured printer
- Scissors
- Handheld hole punch
- Yarn/Pipe cleaners

WHAT TO DO NEXT:

1. Draw or print a picture or shape of your choice.
2. Cut out your picture.
3. Punch holes along the edges of the shape. Keep some space along the border to avoid the paper from tearing. The number of holes and spacing is entirely up to you.
4. Play time! Show your child how to get the yarn through the hole and watch them lace.
5. Have fun using different colours of yarn or pipe cleaners.
6. Save your picture to practice lacing over and over again.
