

Frozen Sun Catcher

WHAT YOU WILL NEED:

- Tin pie plate
- Nature materials: Twigs, pine needles, pinecones
- String or twine
- Water

WHAT TO DO NEXT:

1. Collect items from your backyard or from a nature walk.
2. Arrange them on the plate.
3. Pour water to fill the plate.
4. Once filled, add some string by submerging half of it into the water. You will need to leave the other half out of the tray and hanging over the side of the plate.
5. Allow to freeze overnight.
6. Tie the string to a tree branch so you can admire your creation and watch for it to melt!
7. A great way to explore art, nature and science!
