Sink or Float

WHAT YOU WILL NEED:

- ◇ A large bowl of water
- ◇ Various household items and/or items from nature

WHAT TO DO:

- ◇ Fill the bowl with water and collect child safe items around your house.
- ◇ Before placing the items into the water, have your child predict if the item will sink or float.
- ◇ One at a time, drop the items into the water.
- ◇ Did the item sink or float?
- ◇ Extension Activity: You can try tracking your items by making a simple graph or by creating a list of the items that have sank or floated.
