***Notice of Resumption for East End Transit Terminal, City of Windsor***

Dear Ms. O'Neill,

Further to our notice of issue dated September 13, 2024, indicating that a time out from the 120-day consultation period was being taken for the above-noted project, this notice is to advise you that we will be resuming the Transit and Rail Project Assessment Process. As required under Ontario Regulation 231/08, the date by which the Notice of Completion of the Environmental Project Report for this project must be given has been extended to February 7, 2025.

As outlined in the notice of issue, the time out was taken due to insufficient time to address the ministry's comments on the air quality impact assessment while also meeting the City's obligation to report to Council prior to issuing the Notice of Completion. The ministry's comments on the air quality impact assessment have now been addressed, as confirmed by the ministry's Air Quality Analyst on November 15, 2024. In addition, the project was presented to City Council on December 9, 2024 and authorization to issue the Notice of Completion was provided.

A copy of this notice of resumption has also been posted on the project website: <https://www.citywindsor.ca/residents/construction/environmental-assessments-master-plans/transit-and-rail-project-assessment-process-east-end-transit-terminal>.

If you have any questions or need further information about this project, please contact the undersigned at [ghayes@dillon.ca](mailto:ghayes@dillon.ca) or (905) 901-2912 ext. 3455.
