APPLICATION PROCESSING

The applicant or their agent is responsible for researching and evaluating the site and the proposal to ensure that the development will conform to the interests of the health, safety, and welfare of existing and future residents, and for filling in the application and for supplying all documents necessary to constitute a complete application. Supporting studies must be conducted prior to the submission of the application. This information will be used to review and assess the application.

Section 51(24) of the Planning Act and Section 11.4.2.3 of the City of Windsor Official Plan list the criteria that are used in evaluating a draft plan. Where additional copies of the plan or supporting documents are subsequently requested by staff or review agencies, the applicant is responsible for supplying them at their cost.

Timelines in the Planning Act have been suspended during the State of Emergency. The following is for your information only. Review the Planning Act and relevant regulations for statutory requirements. The processing of the application is subject to change. The application will be terminated without notice after 60 days of inactivity. Direct all questions about the application to the assigned Planner. The procedure generally encompasses the following steps:

1. Within 30 days of receiving this application, the City Planner, or their designate, will review the application to determine if it is or is not complete. If deemed incomplete, the application and supporting documents may be returned for completion, correction, or clarification, or the applicant may be requested to submit additional or revised supporting information. The City of Windsor reserves the right to require additional information during the processing of the application.
2. If ready to be deemed complete, payment options will be provided (fees are not refundable once payment has been processed), the application is circulated to departments and external agencies for review and comment, and all submitted documents are made available to the public.
3. Following circulation, a draft staff report containing a recommendation and any conditions is prepared. The City Planner and other staff review the draft staff report.
4. When the staff report is approved by appropriate municipal staff, it will be scheduled for a future meeting of the Development and Heritage Standing Committee (DHSC).
5. Mandatory public notice of the DHSC meeting is advertised in the Windsor Star at least 20 days in advance of the DHSC meeting. A courtesy notice may be mailed to all property owners and/or tenants within 120 metres of the subject land. The DHSC meeting is the public meeting required by the Planning Act. The staff report is provided to the applicant and DHSC members, and is made available to the public, 10 days before the DHSC meeting.
6. At the DHSC meeting, a staff planner may introduce the application and review the recommendation in the staff report. The applicant and other interested parties are given an opportunity to make verbal or written submissions. The DHSC may ask questions of the staff planner, the applicant and their representatives and any party that made verbal or written submissions. The DHSC may choose to recommend draft approval, denial or deferral of the application. It may also modify the recommendation of the Planning Department.
7. If recommended for draft approval or denial, the staff report and the minutes of the DHSC meeting are forwarded to City of Windsor Council for consideration at a future date. Planning staff have no control over the placement of an application on a Council Meeting agenda. Council Services will forward the date and time of the Council Meeting to the contacts in Section 3. Call 311 or contact Council Services at 519-255-6211 or clerks@citywindsor.ca
8. The City Council meeting, the applicant and the other parties may make verbal or written submissions. If the applicant concurs with the recommendation of DHSC, and there is no opposition to the application, Council may place the application on the Consent Agenda, a part of the Council meeting containing items that are grouped together and passed with one motion. Council may choose to draft approve, deny, or defer the application.
9. Applications may be referred, or the decision of Council may be appealed, to the Ontario Land Tribunal (OLT). Appeals are filed with Council Services. Contact Council Services at 519-255-6211 or clerks@citywindsor.ca
10. If City Council approves the draft plan and no appeals are received, an agreement is prepared for signature and registration on title.
11. The conditions of draft approval must be fulfilled prior to the expiry of draft approval. It is the responsibility of the property owner or applicant to obtain confirmation from agencies and departments that the conditions of draft approval have been fulfilled. Some agencies may require that a copy of the completed subdivision agreement be forwarded to them prior to notifying the City that the conditions have been fulfilled.

Species at Risk

Ontario's *Endangered Species Act* protects endangered and threatened species — animals and plants in decline and at risk of disappearing from the province by restricting activities that may affect these plants, animals or their habitats.

I acknowledge that it is my sole responsibility as the Applicant to comply with the provisions of the *Endangered Species Act, 2007, S. O. c.6*. This could require me to register an activity, get a permit or other authorization from the Ministry of the Environment, Conservation and Parks (MECP) prior to conducting an activity that could impact an endangered or threatened plant or animal or its habitat. I further acknowledge that any *Planning Act, R.S.O. 1990, c.P.13* approval given by the City of Windsor does not constitute an approval under the *Endangered Species Act*, nor does it absolve me from seeking the necessary authorization, approvals or permits from the MECP prior to conducting any activity that may affect endangered or threatened plant or animal or its habitat.

** Possible uses that can cause contamination include but are not limited to: operation of electrical transformer stations, disposal of waste minerals, raw material storage, and residues left in containers, maintenance activities and spills. Some commercial properties such as gasoline stations, automotive repair garages, and dry cleaning plants have similar potential. The longer a property is under industrial or similar use, the greater the potential for site contamination. Also, a series of different industrial or similar uses upon a site could potentially increase the number of chemicals that are present.*
