Re: North Talbot Silverdale Condo and Townhouses - Existing Trees Survey

Bezaire Partners visited the site in July of 2023 to review existing trees. All existing trees on site were identified and measured and a condition assessment was done. This information was presented on the Existing Tree Inventory & Preservation Plan prepared by our office and dated July 2023

At the request of the Owner, Bezaire Partners visited the site on February 19, 2025 to review and update the July 2023 report to include 'all the trees on this property'.

To the best of our ability and knowledge, our original site visit and resulting plan, captured all the existing trees on this property and an update is not required to add additional trees.

Please do not hesitate to contact me at your convenience if I can be any further assistance.

Sincerely,

Gerald (Gerry) D. Bezaire *OALA*
